

“Bill believes that all Americans should have access to quality, affordable health care. Health care must be a right, not a privilege for the few. “

(taken from Pascrell’s website)

Our current system which leaves millions of Americans without health coverage and millions more with inadequate coverage goes contrary to your beliefs. Therefore, your constituents are calling upon you to co-sponsor HR 1384, “The Medicare For All Act of 2019” and work with us to guarantee quality, affordable, and universal health care for all Americans.
